Reading Comprehension

Read the short passage and answer the questions.

Art Class

Child is going to art class with her aunt. She puts on a blue apron and stands at an easel. Today the class is painting ocean animals. Child loves to paint, but her favorite part is mixing colors.

"What happens if I mix blue and yellow?" asks Child.

"Try it and see," says her teacher.

Child swirls the two colors with her brush. They make green! She uses the green paint for a sea turtle swimming in the waves. The painting has to dry, so they wait and have a snack. Then Child takes her turtle painting home to hang on the wall.

1. Who goes to art class with Child?
